GROCERS AND MEAT MEN DECIDE EARLY CLOSING.

Early closing and measures for regulating losses by bad debts were discussed and acted upon at a meeting of grocers and meat handlers at the court house Monday night.

Mr. Fred Weckesser, of the Busy Bee Cash Store, presided and stated the objects of the meeting, dwelling chiefly on the benefits to be derived from early closing, and the need of concerted action by the merchants for protection against those who were uncertain in their payments of accounts.

At the conclusion of the address by Mr. Weckesser a committee composed of Messrs. Carl Wilmoth, A. J. Skillman and L. R. Bramblette was appointed to circulate a petition among the grocers and meat men for early closing. This committee will make its report at a meeting to be held at the same place and time next Monday night. A committee on by-laws and a name for the organization will also be appointed at this meeting.

As a result of the meeting it is probable that the grocers and meat merchants will agree to close their places of business, beginning August 1, at seven o'clock through the week and at eleven o'clock on Saturday nights.

An invitation was extended at the meeting to all the grocers and meat handlers throughout the county to become members of the organization and to attend all future meetings.

SEND IN NAMES OF SOLDIERS AND SAILORS.

THE NEWS wants for publication and for filing in its historical department the name of every Bourbon county boy, or every transplanted Bourbon county boy who is a member of the land or sea fighting forces of the United States. Besides the name, the following information is desired: Name of parents; their place of residence, (if living); his age; date of enlistment, name of company and regiment or other organization to which he is assigned.

A large number of boys from this city and county are now in the Federal and State military service, and THE NEWS wants to print their names on a roll of honor which it will compile for future reference. Promptness in sending in these names will be duly appreciated.

FUND TO TEACH ILLITERATE REGISTRANTS

Bourbon county, which has eighty-six white and sixty-seven colored illiterate registrants liable for military duty, will be called upon soon to raise a certain proportion of a fund of \$30,000, for which the Kentucky Illiteracy Commission is campaigning to teach all soldiers to read and write before the men are called to the colors or go to the cantonment at Louisville. J. W. Porter, of Lexington, is commander of the Seventh District. The district contains 1,773 illiterates liable to military service, according to the registration, and the district is asked to raise \$3,000 of the fund. The fact that the first draft is expected speedily to be followed by a second and, maybe, by a third and fourth before another twelve months makes it all the more important to give instructions to all those registered as not being able to read and write.

TWO INJURED WHEN AUTOMOBILE SKIDS.

An automobile in which Mr. O. L. Frye, optician and jeweler, and Mr. J. W. Brown, of the Brown Music Co., were riding skidded on the wet street on Main, near Nineteenth street yesterday afternoon, and, striking the interurban tracks, turned turtle. The occupants were thrown out, sustaining severe bruises, but no bones were broken. They were removed to their homes, where they were given medical attention. The machine was badly damaged.

SOON TO BE OFFICERS.

The Officers' Reserve Training Camp at Ft. Benj. Harrison, Indiana, will be over by August 15, and it is reported from Washington that the students will be advised before that date of their acceptance. Those who are not commissioned will be sent home and instructed to await the draft or further orders.

Reuben Hutchcraft and Hugh Campbell, of Paris, and William Collins, of North Middletown, are undergoing intensive training at Ft. Benj. Harrison, and friends here are confident that they will receive commissions in Uncle Sam's new National army.

RED CROSS SEWING.

The Red Cross sewing room at the corner of Main and Third streets will be occupied to-day by the members of Jemima Johnson Chapter, D. A. R. The work will begin at nine o'clock. All the members are requested to be present.

PARIS YOUTH RESCUES DROWNING COMPANION.

It is getting to be quite the thing now for a Paris boy to prove himself a "hero" in rescuing drowning companions. Several instances of the kind have been chronicled lately.

The latest addition to the list is that of Forest Letton, Jr., son of Mr. and Mrs. Forrest Letton, of Paris, who, in spite of handicaps and adverse conditions, rescued a young man named Warriener, of Madison county, from death by drowning in the Kentucky River at Boonesboro last Sunday.

Young Warriener and another companion had been in bathing. Both were good swimmers, but Warriener was caught in the middle of the stream, by the current, which is very strong at that point, and was in danger of drowning when Letton swam to his rescue and brought him in safely to the shore. Warriener was unconscious for an hour before he could be restored. Witnesses assert that but for the prompt action of Letton, Warriener would surely have gone into a watery grave. They say that the rescue was all the more remarkable from the fact that Letton had been in the water for some time and was rather weak when he started after the drowning lad, but luckily kept it and brought him in.

Things were rather lively at Boonesboro beach Sunday. Four Mt. Sterling boys became involved in an altercation with the proprietor of a soft drink stand, a free-for-all fight following, in which the four boys came out second best. There was a number of automobile accidents of a minor nature and the gayety of the afternoon was further heightened by the near-escape of several other parties from serious accidents by colliding machines. In rounding the curve on the river road at the top of the hill two machines collided, but no serious damage was done either.

THE COUNTY SUPERINTENDENT'S RACE.

Editor BOURBON NEWS: Mr. J. B. Caywood, candidate for County Superintendent of Schools, publishes a letter from the Attorney General of Kentucky to the effect that a candidate for Superintendent may, if he chooses, wait until after the primary to obtain his certificate of qualification. This publication is intended as an answer to the statements circulated throughout the county and used as the chief argument against him that he is educationally unqualified to fill the office and unable to stand the examination required to get a certificate.

Those statements have been discussed so long and so generally that they have long been known to Mr. Caywood and his supporters. If he could stand the examination, therefore, was it not incumbent upon him to get his certificate both as an answer to those statements which so seriously affect his candidacy, and as a guarantee to the voters who are asked to support him that he will be able to qualify if elected?

Is not his published answer really a plea in confession?

TO JOIN HOSPITAL UNIT.

Base Hospital Unit No. 40, recently organized in Lexington by Dr. David Barrow, has received six new recruits from Paris and the county. Messrs. Douglas Clay, Alvin Thompson, Charlie Spears, Felix Renick, Ireland Davis and Dr. Milton J. Stern.

The new recruits were ordered to report at Lexington, yesterday for examination. If successful they will be accepted and assigned to various duties in the field hospital work which will be undertaken by the unit when it reaches the front in France sometime next fall.

These young men will make excellent workers in the hospital service. They will have as traveling companions from Bourbon when the unit sails in October many from other sections of Central Kentucky.

These young men will be notified within the next few weeks whether or not they have been accepted.

Those in charge of the unit expect to have everything in readiness for service by October, although they may not see active service before the coming of spring. The Bourbon boys will probably be assigned to duty as orderlies and ambulance drivers, branches for which they are especially fitted by previous experience in motor car work. They will be given a training lasting six weeks before they get into actual service.

Supplies which have been manufactured at the Red Cross sewing rooms in Paris will form part of the equipment of Dr. Barrow's hospital unit.

REAL ESTATE DEALS.

Mrs. Elizabeth Shine purchased Tuesday of Miller & Lilleston, through the real estate agency of Harris & Speakes, a building lot in the old Fair Grounds Addition to Paris at a private price.

FAVORABLY MENTION AS MR. ANDERSON'S SUCCESSOR.

Since the recent tragic death of Mr. W. H. Anderson, Superintendent of this division of the Louisville & Nashville railroad, the interest of railroad men and the public generally has naturally turned to his possible successor in that responsible position.

The two names that have been most frequently and most favorably mentioned in that connection are those of Mr. John A. Bower and Mr. James G. Metcalf, both highly esteemed and well-known by the traveling public and by the railroad people.

Mr. Bower began his railroad career as a telegraph operator in the Danville office of the Queen & Crescent road. His rise has been rapid and merited in the past fifteen years, most of which he has spent in the service of the L. & N. at this point. Mr. Bower has been Chief Clerk under Mr. Anderson for many years and knows every angle of the railroad game.

Mr. Metcalf is a son of Mr. Jas. G. Metcalf, former General Manager of the Louisville & Nashville road, and is a thoroughly experienced man, having been brought up in the work under the careful tutelage of his father. Mr. Metcalf is at present Master of Trains on this division, and is well thought of by Paris people.

Railroad men whom THE NEWS approached on the subject were non-committal stating that it was a matter in which they would have no choice. Some were of the opinion that the new Superintendent would be selected from one of the older branches of the service, and that no matter who it would be they hoped the men higher up would first give careful consideration to "home talent."

ROBERTSON ASSEMBLY.

The Robertson County Christian Assembly, one of the fixed religious events of that section of the State, will be held at Mt. Olivet, August 17-26. The Penn Grove Camp Grounds are especially suited for occasions of this kind, and those who have the Assembly in charge are doing all they can to make it a success. The manager, Mr. N. T. McConnell, was in Paris several days this week, in consultation with church workers in regard to attendance from this section.

Several fine speakers are on the program. One of the best is W. H. Book, of Columbus, Indiana, well and favorably known in the religious world.

HUNDREDS OF GALLONS OF BERRIES GOING TO WASTE.

Under the caption, "Blackberries for Everybody," a writer in the Winchester Daily Sun thus laments the fact that hundreds of bushels of luscious blackberries are actually going to waste in the mountainous districts:

"Sobs come to the heart and tears to the eyes of the writer when he beholds the millions upon millions of the finest kind of blackberries that are going to waste in the mountain districts of Kentucky. The natives say that it does not pay to pick them, as they can get only ten cents per gallon for them, and not very much demand for them at that price.

"They are free to everybody for the picking, and such delicious, wholesome food should not be allowed to go to loss in such enormous quantities. They can be found from almost any point from Indian Fields, in Clark county, to Maloney, in Lee county, along the line of the L. & E. When there are so many automobiles in town would it not be a good plan to have a few blackberry parties? It would be a healthful exercise and profitable in getting the berries. Don't let the berries go to waste and then complain about the high cost of living."

Then after you have found a cheap and convenient means of having the luscious fruit picked and brought to the market, the inevitable will happen. The money-lust will seize upon you, and away will go the prices just as others have boomed them before you. It's the way of the world. But let's hope something will happen to break the grasp of the 'blackberry trust' upon the poor man's desert. Please pass the cobbler!

MAY YET VOLUNTEER.

Any one of the 9,700,000 young men who were drawn for army service may yet enlist in the regular army, the national guard, the navy or the marine corps and automatically pass from the list of conscription persons.

This right will pass for the individual the minute he receives official notice from his local board to present himself for examination.

If he volunteers before getting this notice he can pick his branch. If he is taken under the selective draft he will be assigned to any branch the government designates, without his assent.

Brigadier General Crowder, provost marshal general, officially announced this privilege.

AREN'T THOSE LARGE POTATOES?

Ten potatoes with a total weight of eight pounds, constitute one claim of Mr. Gus Christman, of near Paris, to the title of champion gardener. The potatoes, which are of a well-known variety, were grown on Mr. Christman's farm on the Clintonville pike. They have large soulful eyes that gaze upon those who view them as if meditating the problem of how far a hundred acres of eight-pound tubers would go in the nation-wide conservation of food program. A local statistician estimated that at the present market price of potatoes each of the ten Christman products would be worth 3 1-3 cents.

The potatoes are on exhibition in the agricultural department of the Kentuckian-Citizen. Wayne Cottingham is suspected of using them for paper weights when no one is watching.

UNION SERVICES SUNDAY.

At the Union meeting of all the Protestant churches of Paris, to be held at the Christian church next Sunday night, July 29, at 7:30 o'clock, Rev. Dr. O. R. Mangum, pastor of the Paris Baptist church, will deliver the closing sermon of his pastorate of that church.

Services will be conducted by the City Union of Young Peoples' Societies at 6:30 o'clock, Sunday night, in the Endeavor room of the Christian church. The program will be in charge of the Epworth League of the Methodist church.

Union services will continue all through the month of August. The complete schedule will appear in THE NEWS.

Rev. Mangum's subject at the Union meeting will be "God's Tomorrow or Watchman, What of The Night?"

CARLISLE BOY KILLED "SOMEWHERE IN FRANCE."

Word has been received by relatives in Carlisle that Firman Andrews, aged about 24 years, a Nicholas county boy, has been killed somewhere in France. Young Andrews joined a Canadian regiment some time within the past year and left immediately for the war zone. There were no particulars accompanying the dispatch received.

Young Andrews was a son of Pat Andrews, of Nicholas county. For some years he had made his home with Ben Dotson, at Bald Hill, also with Howard Ogden, in Carlisle.

MASTER LIST FOR EXEMPTION

Sheriff W. F. Talbott was asked yesterday by a NEWS man in regard to the masterlist of names of drafted men which is to be sent the Bourbon County Board of Exemption. Mr. Talbott informed us that the list had not yet been received, and the probability was that it would be one or two days yet, as there was a big lot of work to be done on it at Frankfort before it would be ready to be sent to the Boards.

"The local Board is patiently awaiting the list," said Mr. Talbott, "and as soon as we receive it from the Governor's office we will check it up properly and post it in the office of the Board. We will then proceed to mail out official notices to the first 278 men on the list, informing them that they must appear for physical examination. If they properly pass the test and physical examination the matter of exemption will then be taken up."

News reports from Washington state that the lists have been mailed from there. They must go first to the Governor's office, and then be forwarded to the county and district authorities.

County Clerk Pearce Paton, a member of the Board of Exemption, stated yesterday that he had a number of requests for information on the subject of exemptions. "The Board can pass only on cases of physical disability and dependent relatives," said Mr. Paton, "but if the man drafted is not satisfied with the action of the local Board he can appeal to the district Board for a reversal. They do not anticipate any trouble on the physical examinations, which will be held first, but many of those who will claim freedom from service on the ground of dependent relatives will have a hard time unless they can prove clearly that these dependents would actually suffer by the loss of the earnings of the drafted man."

BATHERS WARNED OF LURKING DANGER.

For several weeks bathers have been visiting Stoner Creek in the rear of the old Base Ball Park, all unknowingly exposing themselves to the danger, lurking and unseen, but still present, of contracting disease because of the contaminated waters.

In an interview yesterday with Dr. A. H. Keller, Health Officer, THE NEWS was asked to strongly advise the cessation of bathing at that point as the creek is the dumping ground for all the sewage from the western part of Paris, and is full of disease germs. He stated that he had been trying for the past two years to create a sentiment against bathing in that vicinity, and that now it might become necessary to resort to official interference.

Dr. Keller further stated that as a matter of fact, every person bathing or swimming in unenclosed or open waters, at times gets more or less water in their mouths. From this can be judged the danger persons are exposed to in bathing in that part of Stoner Creek. He strongly advises the bathers to seek a cleaner and more sanitary place.

Wear And Tear On Trousers.

At first glance it may seem an impolite question for us to ask of you, but where do you wear out your trousers?

We can't possibly imagine a Paris man taking umbrage at that. It's a fair question, and there is not a man in Paris but would gladly answer it if he knew that the public at large judges a man by where he wears out his trousers. We have never met the man who flips his finger at public opinion; who doesn't care a rap about what people think of him; who has become totally devoid of pride. There may be a few of these kind on earth, but we have so far failed to find any around Paris. Every man, no matter how soured he may become toward the world, still has somewhere in his system a spark of self-respect. He still prefers to have his neighbors think and speak well of him. For that reason it behoves him to be careful about where he wears out his trousers.

Two Paris women, good neighbors, were sewing the other day. It just happened that each one was mending her husband's trousers. Said one: "We don't appear to be getting a bit better this year than last. It looks ast hough we just live from hand to mouth. John gets in a week's work occasionally, but not often, and he stays at home nearly all the time. He says there isn't any need to hunt for work, and that everybody in town knows that he is looking for work and will send for him when there is anything to do."

And the other woman replied: "I'm so sorry, but Henry and me were just saying last night that we never saw times better, and despite war prices we have plenty, and a few dollars left each week to put in the building and loan. Henry hasn't lost a day's work in two years now, and he goes about his work so cheerfully each day. I don't have anything to complain about."

One of the women was mending the knees of her husband's trousers. The other was mending the seat of her husband's trousers. One of the men was an expert machinist, the other was "a man about town." Where do you wear out your trousers?

Paris now has a stringent stock law, causing quite a bit of inconvenience, to those citizens who have depended upon their neighbor's cow to do the work of a lawn mower.

Passing of The Family Doctor.

The editor of a Kentucky paper wrote a short editorial for his paper the other day deplored the passing of the family doctor. He declared that the big city specialists and the younger generation of medical-college-up-to-date-physicians had crowded the good doctor of the old times out of existence, and that to-day only the smaller towns know him as their friend, counsellor and companion.

In a large measure this is true. But the family doctor is still to be found in Bourbon county, and he is the salt of the earth. He is an essential part of the life of the county and the town, and he will always have a prominent place in rural life.

He will continue to be in Bourbon county just what his father was before him—for as a general rule the family doctor's son always grew up to follow his father's footsteps. He will continue as the family adviser, the "counselor" of the head of the family, the man whose advice is sought along other than medical lines, and always taken with as much seriousness and as faithfully as is his medicine. His word has always been law, and it will continue to be. And he will always command more respect from the children in the rural districts of Bourbon county than

a president or governor could hope for.

This Kentucky editor sees the passing of the family doctor, yet he is forced to admit that nothing can wholly supplant him. Not even the big city specialist can take his place in thousands of families throughout this land. He can still cure a cold and break a fever; set broken leg or arm, and stay the pain in nose, eye, ear or throat. He is still the good Samaritan who has walked with our mothers through the valley of the shadow of death; it was he who took the little red bundle of humanity and announced with tired but patient smile that unto the world another soul had been given.

He has labored well and faithfully in the past, has the good family doctor. His place has been too firmly fixed to warrant the belief that it will ever be usurped by specialists or big-town practitioners.

William "Muchmore" Dudley, of Paris, enjoys the distinction of having dug up a coin here some time ago which bore the date of 1775. But the Red Cross Chapter enjoys a much greater distinction in having made some Paris and Bourbon county citizens dig up coins that had not seen the light of day for almost as far back as that.

BOARDS TO RECEIVE MASTER LIST OF DRAFTED MEN.

Master lists of the draft—the official and last word assigning every man of the 10,000,000 to his place in the national army, have gone forward in the mails to the 4,557 local boards. They superseded all hitherto published lists and rectify all errors. Printed by the most expert and trusted men in the Government Printing Office they have been proofread three times by veteran proof-readers.

In order that each district board may be assured of getting a list in the mails two copies have been mailed to each—one in one mail and one in another. The theory of this practice is that if one list goes astray the other surely will reach its destination.

The summoning of the men of the first increment before the local board will quickly follow the receipt of the official master list. Until the men are summoned they are free to volunteer.

Examination of the master list shows that red ink number 5,794 has been placed as No. 10,500 in the order of drawing. It is assumed that this was the missing number and was placed last, although the blank capsule first came up as 10,004. It had previously been understood that red-ink number 4,664 was the missing number, but that number was later found as No. 9,652, where the master sheet shows it as such.

Another correction on the unofficial list shown in red-ink number 507, but duplicated liability No. 236. The master sheet shows red-ink No. 507 as liability No. 236.

THIRD PAYMENT DUE ON LIBERTY LOAN BONDS.

The third payment of twenty percent on Liberty Loan Bonds purchased by installments is due on July 30. The payment must be made on or before that date according to the official statement of terms and conditions of the sale of Liberty Loan Bonds made by Secretary McAdoo at the time subscriptions were invited.

Whether the bonds were purchased from the Treasury or the Federal Reserve Banks or through other banks or agencies it is important that these and succeeding installments be paid promptly.

The action of many employers of labor in arranging to pay their employees by July 30th instead of August 1st in order to enable them to promptly make their payments on Liberty Loan Bonds is an excellent and patriotic example which no doubt will be followed by a large number of employers.

DRAFT MEN TO BE EXAMINED FOR TUBERCULOSIS.

Men drafted into the United States army will be given a searching examination for tuberculosis. Dr. Hizer, Secretary for the State Tuberculosis Commission, has selected ten physicians in each county in the State to assist in the examination of the men.

The county exemption board will begin work as soon as the numbers are received from Washington. Their reports will go to the State district exemption board for final decision. Adjutant Ellis will notify of the men drafted and he will attend to their transportation to Louisville, where they will begin service.

ARE YOU A GOOD COOK?

Forty companies of cooks are to be organized for the United States army forces now stationed in the United States, and a call has been issued to men desiring to serve their country in this important branch of the service. Each company will have places for two lieutenants in addition to the non-commissioned officers and privates.

The information sent out by the War Department shows that one army field bakery with equipage and a complement of six men is capable of caring for 1,800 men, and the fifteen units of each company can bake a total of forty thousand pounds of bread a day.

ROOTS AND BARK ANCIENT REMEDY

Our Grandfathers Used Them In Crude Form.

CHIEFINGREDIENTS OF TONIC

Our grandfathers and great-grandfathers knew the medicinal values of roots, barks, flowers and berries. Their medicinal qualities are the same now as they were a hundred years ago, but the scientific process of treating them has been improved.

In former times the herbs were brewed into teas. Today modern laboratories make a vastly superior product. Tanlac is a preparation of roots, barks and berries subjected to a process that extracts their medicinal virtues in concentrated form. It is especially designed to build up run down people. It has helped thousands who were suffering from disordered stomachs, liver and kidneys.

George R. Keily, a mail carrier of New Hope, Ky., is one of the thousands in the Blue Grass State who have endorsed Tanlac. Here is what he has to say about this wonderful tonic: "I had trouble with my stomach and bowels. After eating I had cramps. I lost my appetite and got so I hated to eat anything. I felt bad all over. My tongue was coated and I had a bad taste in my mouth.

"Nothing helped me before I started taking Tanlac. I took three bottles and by that time I could eat anything without having cramps. I am feeling fine now. Tanlac helped me from the start and I have recommended it to many of my friends."

If you are not feeling right get Tanlac today.

Tanlac can now be bought here from Varden & Son.

LACK OF OFFICERS.

The United States is facing a serious problem in the lack of trained officers for merchant ships. In this connection the enlargement of the State Nautical Training Schools of Massachusetts and New York is being urged. Each of these States maintains a school for officers for the merchant service, with a training ship loaned by the Navy. The training ships are two obsolete 1000-ton gunboats and it is said that much larger vessels are needed. So many ships have been transferred to American registry since the war began that the President has been forced to suspend the law requiring the officers of American ships to be American citizens. As soon as our new ships begin to put to sea, the shortage will be more actually felt than ever.

THE OFFICIAL BULLETIN.

The Official Bulletin, published by the Committee on Public Information at Washington, is sent to all United States officials of every sort, to the Governors of all States and the Mayors of all cities, to all daily newspapers and press associations and magazines, colleges and universities, chambers of commerce and boards of trade and other public institutions.

It is also sent to every post office in the United States, where it is posted every day.

Numerous requests have been received from citizens asking to be put on the free mailing list for the Bulletin. The cost and mechanical impossibility forbid a general free circulation. Therefore the Bulletin observes the same rules as the Congressional Record and to the general public a charge of five dollars a year is made for the publication.

THE NEXT LIBERTY LOAN.

Secretary of the Treasury McAdoo has made official denial of the report that the date of the next issue of the Liberty Loan would be September 15th and the amount of it three billion dollars.

He states that neither the amount nor the date of the loan offering have been determined and when determined official announcement will be made of the fact by the Treasury Department.

ARE YOU ONE OF THEM?

There are a great many people who would be very much benefited by taking Chamberlain's Tablets for a weak and disordered stomach. Are you one of them? Mrs. M. R. Seal, Baldwinsville, N. Y., relates her experience in the use of these tablets:

"I had a bad spell with my stomach about six months ago, and was troubled for two or three weeks with gas and severe pains in the pit of my stomach. Our druggist advised me to take Chamberlain's Tablets. I took a bottle home and the first dose relieved me wonderfully, and I kept on taking them until I was cured." These tablets do not relieve pain, but after the pain has been relieved may prevent its recurrence.

MAKE 'EM BE CAREFUL.

At certain hours in the business districts of Paris a person standing on the sidewalks or walking along them is apt to be run into and injured by some careless boys who persist in using the pavements as speedways for their bicycles. These boys have neither bells, or horns or lights on their machines, in spite of the city ordinance prescribing use of same.

Then, when they have been forced out into the streets by bicycle riders, they are liable to be run over by the speedomaniacs who think the pedestrian has absolutely no right at all on earth. Careful drivers obey the laws, and show some consideration for the poor mortal whose business compels him to occasionally take his life in his hands and endeavor to cross the street at a corner. Others are not so considerate. They will sound their warning horns, yet not slack one iota of the break-neck speed at which they may be driving.

Bicycle riders caught riding their wheels day or night without warning bells or lights, or who ride on the sidewalks of the city in violation of the express provisions of the ordinance forbidding such, should be taught a lesson, irrespective of their age, color, sex, or station in life. Complaints have been made of delivery boys and others who persist in riding wheels without having warning bells or horns or lights attached, and it is a wonder that serious accidents have been averted so long.

Stick on some stiff fines for some of these fellows, and see if it will have any effect. Will it?

WHEAT CONTINUES TO DO AVIATION STUNT.

Wheat, figuratively speaking, was up in the air on the Paris market yesterday, the highest price of the season, \$2.35 per bushel, being the market figures for the new wheat from the thresher, and hardy any at that. Flour was quoted at \$14.50 per barrel.

The same prices were quoted at dozens of places throughout Kentucky. The most notable advance was at Franklin, Ky., where the highest price ever known, \$2.50, was paid for the cereal. The quotations given above were from the Paris Milling Co.'s office.

ANNUAL REUNION OF SHROPSHIRE FAMILY.

The annual reunion of the descendants of the late James Harvey Shropshire was held at the old family home near Leesburg, in Harrison county, now the home of Mrs. W. O. Shropshire, this year.

Seventy-nine members of the family were present, some coming from other States to attend. In the morning they attended services at the Leesburg church, and heard a sermon delivered by Rev. Newton H. Shropshire, of Clintonville, Bourbon county, a member of the family. A sumptuous dinner was served, and in the afternoon the following officers were elected:

President—James H. Shropshire; vice-president—Walter Shropshire; secretary and treasurer—W. Henderson Shropshire; historian—Mrs. J. L. Waites; assistant historian—I. C. Shropshire.

The following descendants and members of the family by marriage from this city and county were present and partook of the pleasures of the day: Mr. and Mrs. Harvey Shropshire, Paris; Mrs. Anna Belle Wallace, Paris; Mr. and Mrs. Carlie Wilmoth, Misses Myra and Mary Wilmoth, Paris, Mrs. W. O. Shropshire, Paris; Mrs. Amelia Shropshire, Austerlitz; Mr. Newton Shropshire, Clintonville.

ICE CREAM SUPPER BY CHURCH MISSION CIRCLE.

The members of the Mission Circle of the Christian Church will give an ice cream supper Saturday afternoon and evening on the lawn at the home of Messrs. Edward and Thomas Owings, at the corner of Pleasant and Fifth streets.

The entertainment will be for the benefit of the Mission Band, an admission price of twenty-five cents being charged. The public is cordially invited to attend.

Announcement had been previously made of the event, but at that time the place of giving the supper had not been definitely decided. This notice is to apprise the public in general and the friends of the Mission Circle in particular. A good time is assured all who may attend.

THE "BIG" DANCE.

Central Kentucky society people are awaiting the premier social event of the season, the big annual August dance, to be given in the Masonic Temple ballroom, in Paris, on the evening of Wednesday, August 1. Music for the dancers will be furnished by the Smith Saxophone Orchestra. John M. Stuart and Ireland "Bit" Davis, dance promoters extraordinary, have charge of arrangements. Nothing will be left undone to make the dance one of the most enjoyable yet given by these gentlemen. Smith's Saxophone Orchestra will positively play at this dance on the date, August 1. Messrs. Stuart and Davis advise paying no attention to reports to the contrary.

BOURBON COUNTY HORSE WINS MONTGOMERY DERBY.

Clare, a Bourbon county horse, owned by Mr. Kenney Nichols, of Paris, landed the Montgomery Derby, the premier racing event at the Mt. Sterling Fair, which opened Wednesday. The track was heavy, following a heavy rain. Irish gentleman took second place, and Mary H. third. The race was for a \$500 purse.

The half-mile running race was won by Miss Minn, owned by James H. Baker, of Lexington. Tom Mansen, owned by J. M. Hubbard, of Louisville, was second and Nancy Clancy, owned by John Bradley, of Lexington, was third. Time, 10 1/4.

Dengro, owned by Mrs. J. M. Hubbard, of Louisville, led the field for the three-quarters but bolted, losing the race. The time was 1:57 for mile and one-eighth.

Bourbon county was represented by a large delegation of horsemen and others interested in fairs and their attractions.

GAS MASKS.

The use of poisonous gases in modern warfare has become so much the rule, since the practice was inception by the Germans in April, 1915, that a gas mask is invariably a part of the equipment of the man at the front. The American gas mask is said to combine the best features of the German and English, and to be absolutely proof against gases for a period of 10 hours. The breath is drawn through a mouth tube, passing through a canister of chemicals which neutralize the gases. A clamp prevents the man from breathing through the nose, so that all the inhaled air must pass through the canister. Some of the trench masks are much simpler than this, notably one of the French types, which consists simply of a cloth saturated in chemicals drawn over the head, through which the soldier breathes, either with nose or mouth at will.

JUDGE McMILLAN TO CONDUCT SPEAKING CAMPAIGN.

TO THE DEMOCRATIC VOTERS OF BOURBON COUNTY:

Finding that the duties of my office do not permit me to make a thorough house to house canvas and feeling that several matters should be thoroughly explained to the voters in regard to my race for County Judge, I will address the Democratic voters setting forth my claims for endorsement to the office of County Judge in the various precincts on the following dates given below.

My opponent, Mr. George Batterton, is cordially invited to be present and explain to the voters why they should not give me the same endorsement of a second term that he is now enjoying.

CAN'T DISMISS THEM.

Nurses employed by the various counties of the State have no authority to send children from school when they are found to have infectious or contagious diseases. This authority is vested in the county health officers. Numerous complaints have been made to State Superintendent Gilbert that nurses in several counties of the State have dismissed children from school when found to have infectious or contagious diseases. Supt. Gilbert is willing to cooperate with the health officers in dismissing such children from school, but intends to stop nurses from following this practice.

NO ATTORNEY NECESSARY TO PREPARE AFFIDAVITS.

Rumors have been circulated to the effect that the services of an attorney will be necessary in preparing affidavits in regard to matters pertaining to exemption before the Bourbon County Board of Exemption.

Investigation by a NEWS representative disclosed the fact that such is not the case. Blanks will be furnished by the local Board upon which the necessary affidavits may be filled out, without the services of an attorney in any way being required.

DRAFTED MEN MUST WATCH FOR OFFICIAL LIST.

Under the latest ruling of the Provost Marshal, as sent out to the press from headquarters at Washington, the responsibility of answering is put entirely upon the shoulders of the men drafted. They will be expected to watch for the official list which will be posted at the office of the Board of Exemption, and, although they will be sent a notice through the mail, their time will be counted from the time of posting the notice.

Nearly every drafted man in Bourbon county knows his red ink number by this time and must watch the draft board's notice for his number.

MANAGER DRAFTED, MOVIE HOUSE CLOSES DOORS

Manager Salter, of the Gem Theatre, movie picture house at Maysville, having been drafted for army service, has closed the doors of his popular house and gone to his home in Circleville, Ohio, to arrange his business affairs.

Manager Salter gives as another reason the falling off in business due to warm weather cutting down the attendance, the business being run consequently at a loss. It is said that the house will be reopened late in the fall under another management.

HEAVY HAIL DAMAGES CORN AND TOBACCO.

Hail is reported to have done thousands of dollars worth of damage in Clark county during the past few days and C. B. Stewart, of Winchester, underwriters and adjustors for Clark county has received information of the destruction of tobacco and other crops. Al Duckworth had a crop of tobacco on his farm near Thompson Station ruined by hail last Friday night and that of James Swope on the Thompson place in the same neighborhood was also almost completely destroyed.

A big crop of tobacco in the Escondida vicinity, owned by Jones & Fluty, of Winchester, was ruined by the hail. Crops on the farms of James O. Evans, on the Pretty Run pike, and Nelson Mason, who had a crop well up on his place near North Middletown, were destroyed. In the Wades Mill vicinity a big crop on the farm of Mr. Laban Cockrell was ruined by the hail.

The Cynthiana Democrat says: "Mr. Will Sandy was here yesterday adjusting losses on tobacco from hail. He says hail has done much damage in Bourbon county and considerable damage in the northern edge of Harrison. The rest of Harrison county has escaped very well so far."

THE WAR.

All hope of a short war has been blasted by the breaking down of the Russian offensive in the opinion of officials in Washington, it was stated Wednesday night. That the defeat would have a direct and possibly immediate effect on America was generally conceded. It also declared that only a movement that would compel the flank of the German Army in Belgium to be withdrawn can hope to break the Teutonic western lines for many months.

DERBIES LOSE IN POPULARITY.

(Providence Journal.) Where are all the Derby hats of yesterday? Why do only a few men wear them any more?

Blame is on the seductive soft hat. Blame it on motor cars, which do not agree with Derbies or high hats.

A man under a derby in a motor car going more than three miles an hour looks as incongruous as a Derby wearer, coat off and a cigar between his teeth, paddling a canoe.

Blame it on the seductive soft hat, sound flippant, but it isn't. The war has done a great deal to popularize the soft hat. Look into the widows showing summer styles for men and note the military lines and names. Note the wide brims, the absence of conspicuous bands, the trim touch that suggests training and discipline.

"The soft hat has passed through many freak styles and experiments," said a haberdasher. "Its comfort is its first quality. It conforms easily to the head, is light in weight, and isn't badly hurt if it happens to be stepped on or sat on or run over in the street."

ELECTION TIME DRAWING NEAR
READY, BOYS?

The time for holding the State primary election for candidates for city and county offices is only about eight days away, and the candidates are as busy as a dog with an assortment of fleas disposed of his anatomy.

During these remaining days it is expected that things will be more than lively in several of the county races. The remaining days will more than likely be spent by the candidates in the country among the farmers and their Saturdays in the city among those who come here. The campaign for county offices so far as the city is concerned has been a rather warm one all the while, but things are just beginning to get heated up in the county, according to the latest reports.

SCREAM SUPPERS."

The ice cream supper, with its wealth of frozen delicacies and tooth-some cakes served by the deft fingers of handsome waitresses is again with us.

At the Hill School House, on the Hawkins & Cummins pike, near Jacksonville, next Saturday, patriotic ladies of the vicinity, wishing to contribute their mite to the Bourbon County Red Cross fund, will serve ice cream and cakes, besides offering a varied program in a social way. The admission will be 25 cents.

On the same night the Mission Circle of the Paris Christian Church will give an ice cream supper for a worthy cause. The place has not yet been decided upon, but will be announced in a later issue.

HOLSTEIN WILL PROBATED.

In the Fayette County Court the last will and testament of Mrs. Emilie Gilman Holstein, who died at her home in Lexington, recently, was admitted to probate.

By the terms of the instrument which is dated February 26, 1916, all her property is left to members of her family. Her son, Capt. Otto Holstein, now a member of the Kentucky State Guard, is named as executor of the estate.

Mrs. Holstein was the widow of the late Otto Holstein, who was a resident of Paris many years ago, and was a sister of the late Oscar Gilman, who was one of the pioneers in the turkey slaughtering and packing business in Paris.

SWIMMING CLASS AT THE Y. M. C. A.

The swimming classes for women being instructed at the Y. M. C. A. gymnasium by Miss Harriet Rogers continue to hold the attention of Paris women. The attendance at each meeting of the class averages forty-five, all of whom are making rapid progress in acquiring the art. Among the new members are Mrs. Samuel Clay, Mrs. Alex Buckner, Misses Mae Hall, Mary and Margaret Petree.

PARTY AT "XALAPA."

One of the social events in Paris which was enjoyed by about fifty guests Wednesday was the swimming party and picnic supper given at "Xalapa," the beautiful country place of Mr. Edward Simms, between Paris and North Middletown.

Mrs. Katherine Davis Craig, of Paris, was the promotor of the event, which was attended by representative society people from surrounding towns. The occasion was informal and delightful in every way. After aquatic sports in the big pool on the estate a delicious picnic was served in the beautiful grove which was the scene of much enjoyment on the day of the big "fish fry." Among the out-of-town guests were Dr. and Mrs. Rhodes Arnspiger, Mr. and Mrs. Harry Brower, Mr. and Mrs. Wm. Stoll, Jr., Mrs. Minerva Goodwin and Miss Lida Clay Ingels, of Lexington.

IT PAYS TO ADVERTISE.

Good, reliable help is as difficult to find ordinarily as a needle in a haystack. Unless you are extremely fortunate you are likely to be disappointed by selecting from the limited few who offer themselves.

The only efficient method of seeking the properly qualified party is through the advertising column of THE NEWS. We take your message and deliver it into the hands not only of one but of dozens of people who are competent in the particular line of work you desire done. A little "local" or a classified one-inch "ad" is sure to do the work, and do it more satisfactorily than you could ever imagine possible. Little folks enjoy the Victrola

They enjoy the catchy music as well as the big folks—and they soon get to have "favorites" of their own.

There are besides special children's records of well-known songs and recitations which are the children's own.

Bring the children in to hear some of the special Victor Records for children. We'll gladly play them and tell you how easy it is to get a Victor or Victrola—\$10 to \$400.

HELPFUL WORDS FROM A PARIS CITIZEN.

Is your back lame and painful? Does it ache especially after exertion? Is there a soreness in the kidney region?

If so, there is danger in delay. Weak kidneys get fast weaker. Give your trouble prompt attention.

Doan's Kidney Pills are for weak kidneys.

Your neighbors use and recommend Read this Paris testimony.

Mrs. A. L. Burley 329 Eighth St., Paris, says: I have used Doan's Kidney Pills a few times, getting them from the Ardery Drug Co., and from the benefit I have received, I certainly think they are a good, reliable remedy. Whenever my kidneys have been irregular in action or my back has been weak and lame, I have used a box or so of Doan's Kidney Pills. They have always relieved me of the complaint."

FARMERS' ATTENTION!

Since the inauguration of the "Goods Roads" movement in Kentucky and the construction of many miles of the best roads found in America, this State has been quite a haven for tourists, coming from almost every State in the Union.

Many of our farmers have failed to recognize an dgrasp the benefits derived through the medium of publicity, in placing their names on gates and entrances to their farms. I am calling upon the land-owners in every county in this Commonwealth to please have a board or sign painted, giving the name of the owner of each farm, also the name of the farm, if same bears such, and post in a conspicuous place, on the gate or post at the entrance to the farm. This will require but little effort and expense upon the part of each land-owner and the benefits derived through such simple and inexpensive methods of publicity can not be over-estimated.

Commissioner of Agriculture.

TUBERCULOSIS SYMPTOMS.

The early symptoms of consumption are persistent cough and continued hoarseness, loss of weight and appetite, run down, tired feeling, persistent pain in the chest, afternoon temperature, night sweats, spitting of blood, and streaks of blood in the sputum. These symptoms should cause anyone to consult a physician as delay may prove dangerous.

Taken in its incipiency, consumption can be cured. If allowed to run on, it becomes difficult to cure it. The best method of cure is sanatorium treatment, but when that is impossible the treatment may be followed at home, if the patient can be given plenty of nourishing food, fresh air, kept perfectly clean and will follow the advice of a competent physician. To avoid the infection of others the sputum should be expectorated in cups or other suitable receptacles and burned and other precautions observed. If unable to get sanatorium treatment, write to Dr. W. L. Heizer, Secretary of the State Tuberculosis Commission at Frankfort and he will send a pamphlet which deals exclusively with the home treatment.

When you feel discouraged, confused, nervous, tired, worried or despondent it is a sure sign you need MOTT'S NERVERINE PILLS.

AS TO POCKETLESS CLOTHES.

A student of matters sartorial points out that if the threat to make pocketless clothes for men should be carried out on the ground of economy of woolen cloth it would be false economy because the pockets are not made of wool. He predicts that in the event of this apparent but not actual reform every man who buys clothes must pay as much for them without pockets as with pockets. He would then go to a pocket maker and have pockets made. There would be greater profits for the tailor or maker of ready-to-wears, and profits for the pocket makers. The consumer would be skinned.

There is not much probability of pocketless clothes, but it is pointed out that the knee-length underclothing for men represents a saving of millions for makers, because the buyer does not pay less for the knee length "lingerie" than he paid formerly for full length.

The consumer, it is true, accepts us without protest anything that fashion decrees. It has been easy to palm off on him at the regular price half as much underclothing as he wore formerly, but would anyone accept a suit of clothes without pockets? Do you suppose the men of America would agree to carry handbags?

Not while it "takes nine tailors to make a man" and while one man, or at the worst two, can whip a tailor.

"SUCKERDAY."

As I remember it, the best day on the calendar for us schoolboys was Saturday. They might have eliminated the others in the fifty-two weeks of the year if they'd just left that one each week for "we-uns," for that was the day we got our sucker hooks and cotton lines, cut an alder pole along the creek bank and settled ourselves in a favorable bend where the water eddied and suckers were a-plenty. Saturday might, with propriety, have been changed to Suckerday, for that is about all it meant to us. Of course, we didn't linger around the house much to ask if there were any chores to be done, or wood to chop or errands to run or fences to whitewash like Tom Sawyer did. No sirree! We got our worms dug the night afore and sneaked out of the house before breakfast and by doing so developed a life-sized fisherman's appetite. We used to find potatoes and onions in the food trash, and of course you know the salubrious flavor of roast potatoes and how they feed the imagination when you're playing "Injun" along the dirty waters of the creek. —Zim in Cartoons Magazine.

GERMANS TRAIN BOYS.

Germany has a system of military training for her boys, according to recent reports from Berlin. Only boys from 16 years up to the military age are included. At the beginning of the war, large numbers of boys of this age volunteered for the army, but were rejected on account of their youth. The authorities wished to seize the opportunity for taking advantage of their military enthusiasm while it lasted, and organized them into companies and regiments for drill. They are taught rudimentary military maneuvers, and are carefully drilled in loyalty to their comrades, devotion to the Kaiser, and above all to a belief that this is a war for Germany's existence, and that if she is defeated she will be partitioned among the allies.

CATARRHAL DEAFNESS CANNOT BE CURED

by local applications, as they cannot reach the diseased portion of the ear.

There is only one way to cure catarrhal deafness, and that is by constitutional remedy. Catarrhal deafness is caused by an inflamed condition of the mucous lining of the Eustachian tube. When the tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result.

Unless the inflammation can be reduced and this tube restored to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by catarrh, which is an inflamed condition of the mucous surfaces.

PAIGE

The Most Beautiful Car in America

A Word of Warning

As long as the Paige-Detroit Motor Car Company's present supply of materials lasts, Paige buyers will enjoy the advantage of the present Paige price.

It is estimated that this supply of materials will last approximately 60 or 90 days and when the supply is exhausted it will, obviously, again be necessary to readjust the prices of all models of the Paige line.

Then, as now, the Paige prices will be fixed in proportion to the cost of materials. They are never raised arbitrarily. That is a point on price we wish to emphasize.

But when the last word on price is said you will continue to select the Paige because of its mechanical excellence, its beauty, its supreme quality.

HIS MOTHER'S SON—AND MINE.

I've just come in from the soldiers' camp,

Where I saw the body on parade—

Five thousand of them, all khaki clad,

And finer the Lord never made!

But one boy stood out from all the rest,

A stalwart young gentleman fine,

The noblest fellow of all the lot,

That son of his mother's—and mine.

I know there are others who would challenge me,

And call me both vain and deceived;

Mothers and fathers would say I am wrong,

And I shouldn't be believed.

Yet, granting that other fellows are great,

Shoots from a strong parent vine,

He looks to me, of all that array,

Far the best—his mother's—and mine.

Full many of that superb lot of boys

Will dye red the loved soil of France,

Full many of them all broken will be,

And many will die, perchance,

But redder blood can never be shed

To dye the soft flow of the Rhine,

Than blood of our boy—our own bonnie boy,

That son of his mother's—and mine.

I grant it, my friend, that your boy

is great, As great, it may be, as is mine,

And both of us are full proud of them,

Of their blood, as red as new wine,

And we bid them go, God's love helping us,

And greet them through tears of brine,

But I must say that, of all the fine lot,

I've but eyes for her son—and mine.

WOMEN OF MIDDLE AGE

Mrs. Quinn's Experience Ought to Help You Over the Critical Period.

Lowell, Mass.—"For the last three years I have been troubled with the Change of Life and the bad feelings common at that time. I was in a very nervous condition, with headaches and pain a good deal of the time so I was unfit to do my work. A friend asked me to try Lydia E. Pinkham's Vegetable Compound, which I did, and it has helped me in every way. I am not nearly so nervous, no headache or pain. I must say that Lydia E. Pinkham's Vegetable Compound is the best remedy any sick woman can take."

Mrs. MARGARET QUINN, Rear 259 Worthen St., Lowell, Mass.

Other warning symptoms are a sense of suffocation, hot flashes, headaches, backaches, dread of impending evil, timidity, sounds in the ears, palpitation of the heart, sparks before the eyes, irregularities, constipation, variable appetite, weakness, inquietude, and dizziness.

If you need special advice, write to the Lydia E. Pinkham Medicine Co. (confidential), Lynn, Mass.

LARGEST AMERICAN FLAG.

The city of St. Louis, Mo., possesses the largest American flag in existence, as far as is known. It is 150 feet long and 78 feet wide. Imagine a plot of ground containing 11,700 square feet—almost one-quarter of an acre—and you will have an idea of the size of the flag. When used in parades it requires 200 people to carry it. But on account of its great width it cannot be carried through many of the streets of the city.

ARMY OF MILLION MAY BE ASKED FOR.

A special from Washington, on Wednesday, says: "An American army of 1,000,000 men, for service abroad at once, instead of the 500,000 contemplated for the first draft, is foreshadowed by the government's request for an additional \$5,000,000 made to the Senate Finance Committee.

"The first million men are to be made up of the first draft army of 500,000, the national guard, and the regulars. It is improbable that the first draft will be increased, but the government is arranging its finances for other drafts without the necessity of going to Congress for the money.

"Secretary McAdoo, committee members stated, told the finance committee that it was estimated that an additional credit of \$2,000,000,000 be loaned to the Allies, also would be requested."

THE SPIRIT OF '76.

Millions are familiar with that celebrated painting called "The Spirit of Seventy-six." Yet probably only handful know who painted it, or anything about the story back of it. Everybody's for July has a short and very illuminating article by Jas. H. Kennedy, in which these matters are treated.

"The Spirit of Seventy-six"—the famous drum and fife trio—came from the brush and genius of Archibald M. Willard, who is still living,

and has attained the age of 80 years. The artist emerged from overalls and a Wellington, O., wagon shop. A picture called "Pluck No. 1" displayed in a Cleveland art dealer's window, attracted the attention of the discriminating, and paved the way to a kind of partnership with James H. Ryder, through whose suggestion the "Seventy-Six" picture was begun.

In its early stages, this painting was called "Yankee Doodle," and it was first planned along serio-comic lines. "But one day," declares Mr. Willard, "I caught a glint in the eye of the old man who posed for the center figure (who was posing) and in a flash it revealed itself to me what all this stood for—and I could go no further—the real picture pushed everything else aside, and went ahead and painted itself." The old man whose flashing eyes inspired this change of conception was the artist's father, Rev. Daniel Willard, a man of Revolutionary stock.

Twenty-one British vessels of more than 1600 tons each and three of less than 1600 tons each, were sunk last week by mines or submarines, according to the weekly admiralty report on shipping losses. One fishing vessel was also sunk.

Now is the time to buy a bottle of this remedy so as to be prepared in case that any one of your family should have an attack of colic or diarrhoea during the summer months. It is worth a hundred times its cost when needed.

THE WAR.

The American public has not heard much recently regarding German U-boat activities, being so intent on its own affairs, with Congress beating the air in fancy word battles over food control and other matters.

The latest news from abroad gives evidence of renewed activities by these "hornets of the sea."

The British submarine C-34 has been sunk by a submarine, it was officially announced Wednesday. The sole survivor was taken prisoner.

The Handelsblad (Amsterdam) reports that the German steamer Norderney, with a cargo of coal, was torpedoed on the North Sea on Monday. She is aground off the south coast of Texel, Frisian Islands.

The British merchant cruiser Otrway was torpedoed and sunk in northern waters on July 22. Ten men were killed. The remainder on board were saved. This announcement was made officially Wednesday.

British sailors arriving at Halifax, N. S., Wednesday, who claim to have been among crew of vessels in the vicinity of the transports which conveyed the first American troops to France, say they were creditably informed that German submarines made a concentrated attack and were beaten off with a loss of six U-boats, only one submarine escaping.

The sailors said they were within three miles of the transports and witnessed heavy and continuous fire. The men were on three former Dutch vessels, which had been taken over by the British Government, and were on their way to Europe.

An explosion Tuesday on the submarine A-7 at Cavite, Philippine Islands, killed five men and injured three of the officers and crew. The explosion from a preliminary examination appeared to be due to the ignition of gas within the ship. The cause of the ignition of the fumes has not been reported.

A dispatch to the Exchange Telegraph Company, of London, England, from Amsterdam, says a telegram from the frontier announces that English airmen during the past two nights, have bombed the Zeebrugge, the German submarine base and the town of Bruges, Belgium. Explosions and fires followed the attacks. A submarine shop at the Zeebrugge was damaged, according to the dispatch, and it is probable that a submarine was blown up.

Twenty-one British vessels of more than 1600 tons each and three of less than 1600 tons each, were sunk last week by mines or submarines, according to the weekly admiralty report on shipping losses. One fishing vessel was also sunk.

ASKED TO CUT OUT JOY RIDES AND RAILROAD TRIPS.

Suspension by the railroads during the period of the war of "all efforts not designed to help directly in the winning of the war" is urged by the special committee on national defense of the American Railway Association in a letter addressed to public service commissions and all State, county and municipal authorities throughout the country by Fairfax Harrison, chairman of the committee.

An appeal for conservation of the country's oil supply by curtailment of pleasure riding in motor cars and by eliminating other sources of waste while production is increased, has been issued by Chairman A. C. Bedford, of the Defense Council's petroleum committee. Mr. Bedford is president of the Standard Oil Company of New Jersey.

GREATEST HORSE TRADER IN THE WORLD.

"Since the European war began," says a writer in the American Magazine, "Jo Nugent, of St. Louis and Des Moines, has sold approximately 100,000 horses, the world's biggest order for horse-flesh, and he has built up the world's greatest horse market to supply the allied nations' demands for horses. His business with the foreign governments has totaled more than \$1,000,000 a month for the last fifteen months, and the orders on hand, and others reputed coming, will keep him busy. His daily income is said to be one of the most successful of the many 'war babies' which are making scores of new millionaires in America. In view of the fact that Nugent has easily cleared over \$1,000,000, his earning capacity has become one of the seven wonders of his profession.

"Nugent can tell at a glance whether an animal submitted for sale is serviceable for the cavalry or 'gun running' service in Europe, no matter how much of the smell of the soil there may be about a plow horse. And if you ask Nugent why he has been so successful he will tell you it is because he knows horses better than anyone else in the world. It is not conceit that makes him say this, but the Nugent system which is:

"Know one thing better than all the world and you can't fail."

PERTINENT PARAGRAPHS.

We don't pretend to dictate, but would merely suggest that the young men of Paris get together and try to get some other brand of Chautauqua here. Without giving room for an action for libel, we would say that the Chautauqua of the past week did not measure up to the standard maintained by others in other cities around us. Then, there was the same thing at Millersburg at the same. Think of it. Three Chautauqua attractions in one county. Why not get one good one next season. Boys, let's do our own promoting. Whatshay?

Mrs. G. L. Hill visited relatives in Cynthiana, Wednesday.
Rev. A. S. Venable left Thursday for a two-weeks' vacation in North Carolina.

Elder Alex Sander left Thursday for a visit to his daughter, Mrs. Harris, at Jackson.

Rev. and Mrs. R. C. Goldsmith left Wednesday for a week's visit to relatives at Owenton.

J. H. Carpenter was stricken with paralysis Monday morning, and is in a critical condition.

Mrs. Joe Williams and little grandson, Joseph Collins, visited relatives in Winchester last week.

Elder C. O. Cossaboom and family left Wednesday for a two-weeks' visit to relatives at Morgan, Ky.

Mr. William Baldwin left Wednesday for a few days' visit to his mother, Mrs. Martha Baldwin, at Maysville.

Rev. W. D. Welborn and family are guests of Mr. and Mrs. M. E. Pruitt at Stanford.

Mr. Harry Hutchcraft, of Louisville, arrived Sunday as the guest of his daughter, Miss Virginia Hutchcraft, at the home of Dr. W. M. Miller.

The Methodist Missionary Society entertained the little folks in the park Wednesday afternoon. Ices were served and a good time indulged in generally.

Mr. and Mrs. Mack Jones moved Tuesday to the property of Dr. W. M. Miller, on Main street, recently vacated by Mr. E. S. Barton and family, from that of Mr. G. W. Johnson, on Vine street.

Dr. S. H. Creighton, of Indianapolis, Ind., arrived Sunday as the guest of his mother-in-law, Mrs. Belle Taylor, and family. His wife and son have been guests of the home for several weeks.

Mrs. James Howard returned Tuesday after a ten-days' visit to her daughter, Mrs. Kenton Maffett, at Peoria, Ill. She was accompanied home by Mrs. Maffett. Mr. Maffett will arrive Friday.

HOUNDING THE PRESS.

(New York World.)
The Senate Finance Committee has decided to raise the second-class postal rate one-fourth of a cent a pound.

This device should yield some revenue unless the number of pounds of newspapers and magazines should be much lessened, as in the circumstances seems likely. Needless to say, it means a departure from our time-honored policy of favoring reasonable postage the spread of information.

Like any other Government policy, that policy can be changed, though readers will demand proof of the wisdom of the reversal. This will be even more difficult in the case of the proposed tax of 5 per cent. on publication profits. To adopt this proposal would be not taxing but hounding the press.

Newspapers and magazines are not "war brides," revealing in sudden wealth. Far from enriching them, the war has burdened all, ruined many. Every material cost has sharply increased; the revenue has in most cases diminished. One has only to look at what happened to the press of Europe in war time to see where the present tendency may lead.

Every tax that the community bears the press bears. The corporation tax, the income tax against its workers, it would gladly pay if there were any excess profits. It performs, in addition, a service which it does not look upon as a tax, but which to the Government is invaluable, in promoting the sale of bonds, recruiting and all Government war activities. It has a right to expect in return fair treatment from Congress, and not to be singled out for discriminatory burdens.

Buy an Edison!

Get the Best—There's Only One!

The New Edison gets and gives all the artist rendered just as the artist gave it.

"There's only ONE best; that ONE is the Edison." (Harger & Blish.)

Overtone, in music, is comparable with seasoning in food; Edison alone gives all the overtones: the seasoning.

NATIONAL SECURITY LEAGUE'S CAMPAIGN.

The greatest patriotic educational campaign this country has ever seen is being organized by the National Security League. It is a campaign to arouse the people of the nation to a realization of what the war means and what their patriotic duty is. The first definite plans were laid at a meeting of prominent educators called by the Security League in New York early in May. Since then, college and university presidents and professors, university extension systems, Chautauquas, writers, lawyers, editors, judges, politicians and business men in all parts of the country have endorsed the idea and promised the Security League their fullest cooperation in carrying it out.

The League's plan is to organize through its Committee of Patriotism Through Education, of which Prof. Albert Bushnell Hart, of Harvard University, is Chairman, a system of addresses on patriotic and war topics by means of which trained speakers will carry into every city, town and hamlet in every State in the Union the following messages: The causes of the war, the reasons for the entrance of this country into the conflict, what the United States must do to carry out its part, and the knowledge that not only the existence of democracy in the abstract, but also the very life of this nation itself depends upon victory over Germany.

Over four hundred university and college presidents and professors have already volunteered to actively take the field in carrying on this great campaign. The Presidents of over one hundred universities and colleges will either personally make addresses or have suggested members of their faculties who are willing to contribute their services. The leading Chautauquas are adding patriotic addresses in their programs. At the numerous annual conventions of fraternal, business and educational societies and associations, which take place in various parts of the country during the Summer, particular sessions will be devoted to the campaign. "Wake Up, America!" and "Tell the People" are the watchwords of the National Security League in this campaign. The object is to arouse every individual citizen on the United States to a realization of the meaning of the war and the importance of personal service and sacrifice in bringing it to a successful conclusion.

PRICES AND VALUES.

(St. Louis Post-Dispatch.)
One of the results of the changed cost of living in the past few years has been a confusion of prices with values by those who try to measure the values of commodities to-day with those of a decade or so ago. An anecdote illustrative of the point is told in a recent circular letter by a lumber industry.

A Missouri farmer, as the story runs, kicked because his dealer offered him for \$90 the same kind of buggy that his father bought 20 years ago for \$50. The merchant, upon investigation, found that the father paid for his vehicle with 300 bushels of corn. Whereupon he offered to give his customer in exchange for 300 bushels of corn the following articles:

One \$90 buggy.
One \$75 wagon.
One \$20 suit of clothes.
One \$20 dress for his wife.
One \$2 dress for his baby.
One \$5 crib for his baby.
One \$3 box of cigars.
\$10 worth of sugar.
\$10 worth of tea.
\$100 worth of gasoline.
\$15 worth of lubricating oil.
The farmer refused the offer, paid \$90 for his buggy and departed satisfied.

SHE GAVE AWAY \$300,000.

A strange story of unselfishness and reversed fortunes is told in the American Magazine. It has to do with Mrs. Marks Nathan.

In Chicago the name of Marks Nathan is standardized as typifying Jewish charities. There are several Marks Nathan institutions, several Marks Nathan funds, a half dozen Marks Nathan scholarships.

"Mrs. Nathan and her late husband gave fully \$300,000 to charities. After her husband's death Mrs. Nathan gave away more until she had only \$10,000 left upon which to live. That was lost in a bank failure, and now she is penniless and an inmate in Home for Aged and Indigent Jews, of which she herself is a director.

"She began by making wire frames for hats with her own hands, for individuals, and expanded to a shop with several helpers for the limited market of those days. Then a great piece of fortune came along—hoop-skirts swept into fashion and she swept along to a handsome profit by turning her facilities to the manufacture of wire hoops.

"With some of her earnings she bought a piece of land. The \$8,000 she invested became \$40,000 when she sold it as part of the site of the Santa Fe terminal. With \$20,000 of that she bought prairie land on what was then the city limits, and a few years later sold it for \$150,000 as the spot for the Illinois Central depot. Thereafter she made several other keen buys and was rated, thirty years ago, as one of the wealthy women of the region."

MATRIMONIAL.

JOHNSTONE—THOMAS.

Friends in this city are much interested in the published announcement of the engagement of Mr. Hanson Thomas to Miss Carey Johnstone, both of Lexington. No date has been definitely set for the wedding.

Mr. Thomas is a son of the late Mr. Wm. (Sonny) Thomas, of Paris and Winchester, his mother being a native of Paris, where as Miss Carrie Hanson, she was a social favorite. He is a cousin of Mr. Richard P. (Rick) Thomas, of Mt. Sterling, formerly of Paris.

PLOCKETT—MIDDLETON EADES—BARNES.

Eld. W. E. Ellis, pastor of the Paris Christian church, was called upon Wednesday to perform the wedding ceremony for two Lexington couples, who came here to escape the petty annoyances and inconveniences of getting married in a small place.

Wednesday morning Eld. Ellis at his residence, corner of Main and Tenth streets, performed the ceremony uniting for better or for worse the hands and hearts of Miss Bessie Pockett and Mrs. James H. Middleton, both giving Lexington as their residence.

At four o'clock Wednesday afternoon a blushing bridal pair again stood at Eld. Ellis' door, invoking his help in relief from single statedness. They were Miss Mary Eades and Mr. H. G. Barnes, also of Lexington. Eld. Ellis performed the marriage ceremony for them and sent them on their way with his blessing.

STEGEMAN—URMSTON.

The marriage of Miss Agnes Stegeman and Mr. Homer Urmston, both of Hamilton, Ohio, was very quietly celebrated in Paris, Tuesday afternoon at the home of the officiating minister, Rev. George H. Harris, rector of St. Peter's Episcopal church.

The couple, accompanied by Mr. Louis Rapp, of Hamilton, motored to Lexington, Tuesday, for a short visit to Mr. and Mrs. Howard Gassaway, and decided to marry in this quiet way. They were entertained with a beautiful luncheon at noon by Mr. and Mrs. Gassaway, and later in the day, accompanied by Mr. and Mrs. Gassaway, Dr. and Mrs. Gassaway, Miss Gassaway, of Illinois, and Mr. Rapp, motored to Paris for the ceremony.

After a short wedding trip and visit to relatives in Lexington, they will return to Hamilton, where they will make their home in the future. The bride is a very beautiful young girl, and was very much admired by those who saw her here.

Mr. Urmston is a very popular young business man of Hamilton, where he is associated in business with his father. The news will come as a very great surprise to the family and friends, the secret having been so well guarded.

NEW RUSE TO MAKE MONEY.

(New York Cor. Pittsburg Dispatch.)
It is necessary at all times that the apartment housewife of this village should concentrate her mind on her pocketbook. If she happens to forget it someone is sure to break in on her weekly allowance, for there is a busy bunch of highbinders here who are forever thinking up ways and means of getting something for nothing. The latest wrinkle is the laundry dumbwaiter game. This is the way it is worked: A man at the foot of the dumbwaiter shaft represents himself as the agent of the laundry which the woman patronizes. He informs her that a sum of money has been found in the clothing she sent out. The woman is at first positive that she was not so careless, but upon the insistence that she has had a lapse of memory. Then comes the old "hocus pocus." The man says he has only a large bill, having given all his change to another laundry patron in the apartment house. Supposing the sum of money which the man says was found in the laundry to be \$1.65, he asks the woman to put \$3.35 on the dumbwaiter and send it down and he will send back up a \$5 bill, the smallest change he has. The prospect of getting the \$1.65 lulls the victim into security, and she obeys the instructions. After she has waited a half hour for the \$1.65, she telephones the police. But there is one in every apartment house every minute.

TALKING MOVIES.

Application has been made for a patent on a very elaborate device which would produce a combination of the cinematograph and the phonograph to give us moving pictures wherein the characters not only move but speak. The idea of soul pictures is not new, but the difficulties of synchronizing have hitherto proved insurmountable. By synchronizing is meant the exact coincidence of the motion picture, projected by one machine, with the speech supposed to proceed from the characters, which is produced by quite another. Unless the speech comes at the right instant, the result is laughable rather than impressive. In the proposed device, the actual speech of the characters is transmitted by wireless telephone to a phonograph whose complex receiving mechanism is synchronized with the movements of the moving picture camera.

RELIGIOUS.

JOHNSTONE—THOMAS.

Union services at the Christian church Sunday night. Sermon by Rev. Dr. O. R. Mangum, of the Baptist church, this being his farewell sermon.

The Presbyterian Church will hold services in the court house, Sunday at 10:45 a. m. Sermon by Mr. Rice on the subject, "Six Rules For Keeping Young."

The regular monthly meeting of the Woman's Bible Class of the Methodist church was held yesterday afternoon at 2:30 o'clock, in the home of Mrs. Robt. McIntyre, on Fifteenth street.

The members of the C. W. B. M. of the Christian Church will give a reception to the ladies of the church in the church parlors next Friday afternoon, August 3, at three o'clock. A good time is promised.

Baptist Church—Sunday School 9:30; morning worship 10:45. Rev. Dr. O. R. Mangum will hold his last service with the church. All the members are earnestly requested to come. A cordial welcome to all.

The tent meeting under Evangelists Hobbs and Herrington is attracting large crowds to the old Bourbon College grounds, which is an ideal location, easily accessible from all sides. Services begin promptly at 7:45 each night. The services are intensely interesting.

FOR YOUR SCRAP BOOK.

FARMERS.
Old Cadmus was a farmer. Though born to spear and shield; Arrayed in brazen armor,

He tilled a stubborn field. With dragons' teeth he sowed it then And from Bocotian glebes

There leaped the valiant fighting men That crowned the walls of Thebes.

Old Cadmus was our brother; A goodly crop he grew— As we shall grow another

That blow the acres, too. Our garden beds and fertile farms Shall yield the strength divine That nerves the mighty man-at-arms

And build the battle line.

Then bravely to your labors,

My lads that dig the loam!

Your blades of wheat are sabers

That strike for flag and home.

And though ye gain but little there

That wield the spade and hoe,

Your hills of corn are stalwart ranks

That march against the foe!

—Arthur Guiterman.

Some kinds of love may grow cold, but the kind a man has for himself never does.
